

# "Expiring" and "Canceling" Funds

This is a little tutorial on how to read a fund cite and be able to know when the funds will “expire” and when they will “cancel.” Since codes and rules can change at any time, this is to be considered general guidance only.

# Current, Expired, & Canceled Funds

\*Operations & Maintenance

\*\*Research, Development, Test & Evaluation

# Funding Terms

- Current - When funds can be obligated (e.g., to buy new widgets)
- Expired - Funds can no longer be obligated for new requirements, but are still available to pay the bills.
- Canceled - Funds are no longer available for anything, including to pay the bills.

# QUIZ

**Sample Fund Cite: 21 6 2040 181096P5228182572...**

1. What Service is this?
2. What year do these funds “expire”?
3. What year do these funds “cancel”?
4. Would these funds be considered “current” during
  - a. 1996?
  - b. 1997?
  - c. 1998?

(Answers on Next Page. No peeking!!!)

# Quiz Answers

1. **Army**, since the first two positions are “21.”
2. **1998**. The “6” in the third position indicates these are 1996 funds. (There’s an outside chance they could be 1986 or 1976, but let’s hope not!) The “2040” in the 4th through 7th positions tells us these are Army RDT&E funds, which we know are “current” for two years, after which they “expire.” That means these funds are “current” during 1996 and 1997, and will “expire” the first moment of 1 Oct 98.

# Quiz Answers

3. 2003. After funds are no longer “current,” they all enter a 5-year period when they are “expired.” After this, they “cancel.” In this example, the funds are “current” for 2 years (1996 & 1997), then they’re “expired” for 5 years (1998-2002). That means these funds will “cancel” the first moment of 1 Oct 2003.

4.a. Yes. RDT&E funds are “current” for 2 years so these funds are current and available for obligation during 1996 and 1997 only.

4.b. Yes. See 4.a. above.

4.c. No. See 4.a. above. These funds are “current” only until midnight 30 Sep 97, then they “expire.”
